FACT-An/fatigue Scoring Guidelines (Version 4)

Instructions: 1. Record answers in "item response" column. If missing, mark with an X
2. Perform reversals as indicated to obtain "item scores."
3. Multiply the sum of the item scores by the number of items in the subscale, then
divide by the number of items answered. This produces the subscale score
4. Add subscale scores to derive total score.
5. For guidelines on handling missing data, please refer to the scoring and administration
procedures outlined in the FACT manual.
